You Mothers Who Have a Real Boy

Here are real clothes. Not the fussy, fancy, impractical kind; but good, staunch, substantial garments with style and durability.

These are XTRAGOOD clothes. The real boy, with all his pranks, can't harm them.

The trousers are lined throughout. A rip or a tear is a thing unheard of. Then there is a fullness that makes it impossible for the boy to stretch them out of shape.

Style comes natural in clothes made like XTRAGOOD. The proportion and shape given the clothes by the tailors who make them remain a part of the garments to the end.

Only one store in town sells XTRAGOOD. That's this store. The new Spring styles are here now. Prices will attract you as much as the clothes. Both are right.

SPECIAL ELEC- TION JUNE 17

REMOVAL OF STATE CAPITAL
FROM GUTHRIE TO BE SUB-
MITTED TO VOTERS OF
STATE.

RAILROAD AMENDMENT ALSO SUBMITTED

Permitting Foreign Railroad Corpora-
tions to Acquire Property of
Domestic Corporations.

Guthrie, Ok., April 12.—At the special election to be held throughout Oklahoma on June 11, in addition to the question for removal of the state capital from Guthrie, there will be submitted to a vote of the people the proposed Sec. 29 of Art. IX of the constitution, which was initiated some months ago under supervision of the Oklahoma Federated Commercial clubs. The chief claim in support of the amendment is that it will permit foreign railroad corporations to acquire the property of domestic corporations, or those organized under the laws of Oklahoma, now expressly prohibited by Sec. 9 of Art. IX of the state Constitution. The campaign thus far has been made up the straight repeal of Sec. 9 but in fact, the proposed amendment makes no reference to that section either by name or number. Its adoption, however, would wipe Sec. 9 from the constitution. Sec. 9 reads:

"Neither shall any railroad company, transportation company or transmission company organized under the laws in this state consolidate by private or judicial sale, or otherwise, with any railroad company, transportation company or transmission company organized under the laws of any other state or of the United States."

Sec. 49, which it is proposed to adopt as a part of the constitution, attached to Art. IX, reads as follows:

"Sec. 49. Any railroad, transportation or transmission company, organized under the laws of any other state, or of the United States, or any Territory thereof, and owning or operating any line or lines in this state,

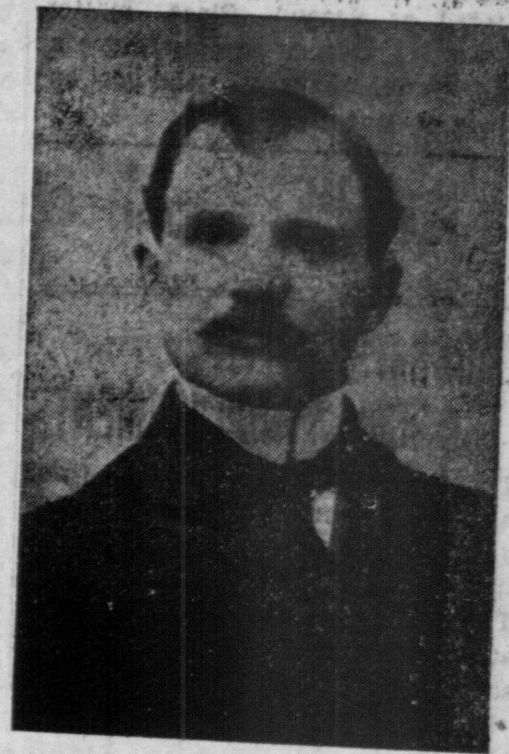

or which may wish to construct or extend its line or lines in or into or through this state shall have the right and power upon filing a copy of its articles of incorporation with the secretary of this state, and appointing and maintaining a resident agent upon whom process may be served, to extend or construct its line or lines in or into or through this state, and build branches, and make additions or improvements and exercise the power and right of eminent domain to accomplish the corporate purpose of any such corporation, and any such foreign and domestic railroad, transportation or transmission company may lease, purchase or otherwise acquire and operate the line or lines of any railroad, transportation or transmission company is hereby authorized and empowered to make such lease, sale or other disposition of its property, or any part thereof, provided only that the line or lines of such railroad transportation or transmission company, or leased, purchased or acquired, shall in some way connect at any point or form a part of the line or lines constructed or projected or system or business of such foreign or domestic railroad, transportation or transmission company, thereby forming connected or branch lines to the line or lines of such foreign or domestic railroad, transportation or transmission companies constructed or projected, thus facilitating the transportation of persons or property or transmission of intelligence and forming through or extended lines of transportation or transmission and communication from and to various points in the state. Such foreign corporations shall not be required to maintain a general office or to hold corporate meetings in the state; or keep its books or records in this state except as may be necessary in the transaction of its business within the state, but this provision shall not be construed as limiting the power of the state to require by law the filing of such reports and the furnishing of such information as may be necessary to properly regulate its business in the state, and shall not relieve such foreign or domestic corporation from all proper supervision and control of the corporation commission under the constitution and laws of this state."

It will be observed that the proposed new section in addition to giving the right to consolidate railroads that are foreign and domestic, it grants to foreign corporations authority to exercise the right of eminent domain, which would automatically result from repeal of Sec. 9, or

PREACHER ELOPER

OPPOSING REQUISITION

Guthrie, Okla., April 12.—Isaac Choate, the Harrah preacher, who ran away with pretty fifteen year old Myrtle Williams, doesn't want to go back to Fort Worth, where a charge of perjury has been lodged against him.

When Choate took the girl to Ft. Worth and married her, he swore that her age was eighteen. When it developed that she was three years younger, a charge of perjury was lodged against him.

The governor of Texas has issued a requisition for Choate's return to that state and Choate is fighting it on the ground that while he was

courting the girl her relatives told him she was eighteen years old. He will be given a hearing before the governor Thursday.

RESUBMISSION MANDAMUS ARGUED

STATEMENTS OF ONE SIDE AT-
TACK 21-YEAR DRY PROVIS-
ION, OTHER DEFEND IT.

COURT HEARS ATTORNEYS

Arguments on Mandamus Application
of Resubmissionists Against Sec-
retary of State.

Guthrie, Ok., April 12.—The su-
preme court today head arguments
on the mandamus application of the
resubmissionists against the secretary
of state to require that he accept, as
filed, petitions calling for another
vote of state-wide prohibition. Judge
C. B. Stuart of McAlester, represent-
ing the petitioners, told the court
that the enabling act, upon which the
opponents relied, required that the
twenty-one year prohibition clause
be put in the constitution as apply-
ing to Indian Territory part of the
state and in doing so the state did
not agree that it would not later
amend its constitution in this re-
gard. The federal government, he
stated, according to decisions, had
no authority to regulate or restrict
the state in the exercise of its po-
lice powers, after it had gotten into
the union, and that the state could
not yield its power in such respect.

John Devereaux of Guthrie, repre-
senting the Anti-Saloon League and
against issuance of the mandamus,
held to the view that the prohibi-
tion provision of the enabling act
which the state accepted, was a sol-
emn compact between the state and
the federal government and could
not be repudiated at will, unless both
parties to the original agreement gave
consent. He referred to the limita-
tion placed against the state of Ohio,
regarding traffic on certain streams;
and to the case of Kansas should not
be taxed for a certain length of
time, showing that in both instances
the appeal courts had sustained the
provisions inserted by congress in
enabling acts.

H. T. Laughbaum of Oklahoma City,
attorney for the Anti-Saloon League,
argued that the proposition was a fixed
portion of the state's law for a
period of twenty-one years, and there
after until repealed by the people;
this being the result of the vote at
the polls adopting the proposition
and the agreement between the Fed-
eral government and the state. In the
light of this, he insisted, prohibition
is not subject to the initiative and
referendum.

ONLY AMERICANS MAY OWN OKLAHOMA LANDS

Guthrie, Okla., April 12.—In reply
to an inquiry from A. Rossi, royal
consul general representing the Ital-
ian government at Denver as to
whether aliens are allowed to own
land in Oklahoma, Attorney General
West replies by quoting from the
constitution and laws of the state which
provide that no alien shall acquire
title to land in Oklahoma. If an alien
shall acquire title to land by inher-
itance, he may hold it five years and
if not disposed of at the end of that
time it escheats to the state, provid-
ing that he has not previously be-
come a citizen of the United States.

STATEHOOD FOR NEW MEXICO AND ARIZONA

Washington, D. C.—The statehood
bill, admitting Arizona and New Mex-
ico, was reported and read in the
senate this morning.

The bill provides for the govern-
ors of Arizona and New Mexico call-
ing a constitutional convention to
submit a constitution to the voters
of the territories. If, after this has
been done and congress approves, a
call for the election of a legislature
will be issued.

REBATE RECEIPTS MERELY CHANCES

Too Small to Be Kept Track of and
Perhaps Not Valid as a Claim.

Guthrie, April 12.—A great many
letters have been received by the cor-
poration commission asking that steps
be taken to improve the method of
receipting for overcharges on pas-
senger fare by the Santa Fe com-
pany.

The railroads were directed, when
they secured the injunction knocking
out the two cent fare law, to issue
to each person buying a ticket at
the three cent rate a receipt for the
amount represented by the difference
between the two cent and the three
cent rate, this excess to be paid to
the passenger should the higher court
uphold the two cent rate.

The Santa Fe gives a coupon that
carries a serial number. It does not
state the points between which the
holder was traveling when he
"bought" the coupon nor indicate the
amount that he paid for it. Should
the refund be ordered by the court
the holder of this coupon would sim-
ply have to surrender it to the rail-
road company and in the course of
time, a month or a year or two years
later, after the railroad clerks had
had an opportunity to check our files
and reports and coupons to the extent
of several hundred thousand, per-
haps millions, he would receive a re-
fund in such amount as his "chance"
might call for—provided his coupon
did not get lost in the transaction
and no errors were made.

The traveling men complain that
they have to turn these so-called re-
ceipts in to their employers with ex-
pense accounts, and that they have to
attach them to something big enough
to carry a memorandum as to what
the coupons are and to reduce the
chances of the coupon being lost.

Appeals to the corporation com-
mission to install a system of re-
ceipts that would be fair to the pub-
lic are useless, as this method satis-
fies the federal court, and the com-
mission is without jurisdiction in the
matter.

Moreover, the system is wholly in
keeping with the treatment of the
public that is to be expected of a
railroad hiding behind the compre-
hensive folds of the gown of federal
jurisdiction. It is a fair illustration
of the methods in force before the
corporation commission was created.
The ordinary railroad thinks it an in-
sult to its dignity to make anything
sufficiently plain for an ordinary citi-
zen to understand it. They keep their
books, make their reports, and es-
pecially arrange their tariffs so that
it takes an expert to understand
what a rate is. A majority of the
agents in the employ of the railroads
the country over cannot tell what a
rate is when they see it in the com-
pany's tariff. If an agent makes an
error to the company's disadvantage
his wife and babies must make it
good out of the pittance he is paid
and upon which they depend, and it
is not strange that mistakes are al-
most invariably in the company's
favor.

When a shipper is the victim of so
gross an error that he knows it must
exist, and appeals to the corporation
commission, he can hope for a re-
fund, for the commission can figure
out the amount of the overcharge and
collect it for the shipper, as has been
done in an amount aggregating thou-
sands of dollars in the last year; but
for every mistake sufficiently big
for the shipper to know of it or for
him to think worth making the basis
of a claim, there are scores that no
one ever hears of, but which swell
the company's earnings to an enor-
mous extent every year.

When this passenger rate case is
settled the holder of the lucky num-
bers that are now being issued in
place of receipts will be lucky indeed
if these coupons be not subjected to
the scrutiny of a corps of experts
who will discover in them the basis
for a "theory" that will impress some
federal judge with the conviction that
these simple numbers do not consti-
tute a valid receipt, are not evidence
of claim, and cannot be made the
basis for collection.

AMERICAN FLAG PLANT-

ED ON MT. MCKINLEY
Fairbanks, Alaska, April 12.—The
Fairbanks expedition to Mount Mc-
Kinley, the tallest peak in North
America, reached the summit on
April 3rd after a climb of one month
from the base. No traces of Dr.
Cook's alleged ascent was found.
Thomas Lloyd leader of the ex-
pedition, arrived here last night. His
companions were Daniel Patterson,
W. R. Taylor and Charles McGonnigle
and all reached the top of the great
mountain. The expedition, which left
Fairbanks, December 15th, while the
controversy over Dr. Cook's disputed
ascent was still raging, was financed
by August Peterson and William Mc-
Phee of this city. The plan was to
go into camp on the mountain as
high as possible and probably about
the middle of May make a dash for
the summit.

The obstacles encountered were
not so great as had been predicted.
Four camps were established dur-
ing the ascent and the trail blazed
all the way to the crest. Up to 12,000
feet the climbing did not present the
unusual difficulties. For the next 4-
000 feet the way led over a steep ice
field which at first seemed to forbid
further progress, but through which
upon exploration it was found pos-
sible to locate a path. The final dash
to the top was made from the foot
camp at an altitude of 16,000 feet.
Mount McKinley terminates in twin
peaks of equal height, one some-
what rounded and covered with snow,
the other composed of bare and wind
swept rocks. On the rock peak the
Fairbank climbers placed an Ameri-
can flag in a monument of stones.

Railway Defies Commission.

Hominy, Ok., April 12.—Speaking
from the rear of his private car to
Hominy citizens yesterday, President
A. A. Allen of the Missouri, Kansas
and Texas Railroad Company, who
was on his way to St. Louis from
Texas, said that his company had no
intention of complying with an order
of the Oklahoma Corporation com-
mission commanding that the Katy
division be moved from Osage junc-
tion to Cleveland because the re-
moval was impracticable. The Katy
has applied to the commission for a
new hearing, but no action has been
taken on the application.

BANKS FACILITATE BUSINESS

Have you calculated what a good bank is worth to any community? Have you figured how much more money is worth when in bank than when hidden away in an old stocking? The difference is not to the bank alone, but to the whole country. President Loudermilk of the Union said in a speech at Stephenville that had farmers generally followed the advice of a few, who had not considered the consequences, and withdrawn from the banks all their deposits, it must have bankrupted the banks and meant ruin to the country and that farmers would have been the greatest sufferers. This shows that Mr. Loudermilk has a conception of the relations of business interests.

The man who hides money may not lose it by a bank failure, but he may have it stolen, or he may be murdered for it. Or he may be tortured and forced to give it up. To hide money in a miserly way is folly. It is fortunate that it is unsafe to do so. Money in bank is seldom paid out, and checks become circulating medium, with the result that money does duty many times. Full banks mean prosperity for a community. They evidence prosperity and cause prosperity.—Farm and Ranch.

As a result instructions have been sent to the register and receiver of the Lawton land office to accept payment on town lots in Cache. A patent to the townsites trustees also will go forward shortly.

Former Athlete Chastises Bully.

Chandler, Okla., April 12.—Coming from Wichita Falls, Tex., Dr. A. B. Potter, an ex-college athlete and at present a paving contractor in Chandler, gave a latter-day performance of the Dick Merriwell act and incidentally taught a bully a lesson in politeness. The bully started a disturbance. Two of Potter's blows beat him through the door of the coach and he retired to the smoker and remained docile.
Dr. Potter, during the years between 1895 and 1898, was an all-western star halfback, playing on the Northwestern university team during the years that school won the middle states championship. He twice made the position as half back on the all-American team. His athletic record includes also a 100-yard record of 9 4-5 seconds.

Ben Lomond, Cal., April 12.—Woodsmen say that Jim Jeffries is an expert with the axe. They saw him use one Monday to good advantage, for during the day the fighter felled three trees and not only did he cut them down, but he cut them up and with a saw converted them into fire wood.

Rain had prevented the usual morning roadwork and Jeffries was strolling toward the gymnasium when he caught sight of a woodsman felling a big tree. He offered to finish the job and the axe was handed to him.

Stripping off his coat Jeffries swung the axe until the tree, whose trunk was four feet round lay on the ground. The big pugilist is now enthusiastic over woodcutting.

"Its great exercise," he said, "and I intend to do a great deal of it. I cut a cord of wood just before I came up here. It was the first wood-chopping I had done since I was a kid."

Wood-chopping will be added to Jeffries' daily program of training work. Just when Jeffries will begin boxing no one in the camp is able to say.

Jeffries is whimsical about work, and rarely follows a set schedule.

His decision to don the gloves for sparing probably will be reached on a moment and carried into immediate effect. Indoor work will be taken up more extensively when gloves, bags, pulleys and other condition apparatus arrives.

Johnson Starts Work.

Chicago, April 12.—Jack Johnson started training in earnest Monday for his coming battle with James J. Jeffries for the heavyweight fighting title of the world.

SPECIAL ELECTION JUNE 17

(Continued from Page One.)

the adoption of the proposed Sec. 49, even though the grant was not expressly set out. The proposed section also repeals the general office clause of the constitution, that requires the maintaining of headquarters in the state, the holding of annual meetings here and the keeping in the state of records, books, etc. It provides in the final clause however, that the powers of the corporation commission shall not thereby be restricted, and shall not be construed as limiting the state's authority to require production of such papers as are necessary to proper regulation of a railroad in the state.

According to Attorney General West who prepared the ballot title, the proposed new Sec. 49 has a much greater effect than disclosed by casual reading. He insists that it would repeal Secs. 2, 6, 8, 9, 11, 28 and 31, and a part of Sec. 18 of the constitution.

The only railroads operating in Oklahoma that would be affected by the change are the Oklahoma Central and the Missouri, Oklahoma and Gulf. The Atchison, Topeka and Santa Fe has made a tentative agreement to purchase the first, if it is made legally possible, and it is understood that the Houston and Texas Central would absorb the latter. The change would also affect railroads being projected within the state, by permitting their sale to the larger systems when completed.

There is to be submitted to a vote of the people at the general election in November a substitute for Sec. 9, by reason of which the public might be confused. The substitute was passed during the second legislature's regular session, and is literally copied from the Louisiana constitution. It would permit consolidation or purchase of domestic by foreign corporations, but provides that such portion of the property remaining in the state shall be subject to jurisdiction of the state courts as though no consolidation or purchase had taken place. There is some doubt among attorneys whether such a clause would be effective, for, it is pointed out, to have half of a concern of one corporate character, and half of another, is probably impossible. The substitute was urged before the legislature by representatives of Oklahoma Commercial Clubs, who stated that such provision "worked all right in Louisiana."

Being submitted at different elections, it is possible, however, for both the so-called Carter proposition (proposed Sec. 49) and the legislative substitute being adopted. In such event members of the legislature think both propositions would go to the courts, and there be rewritten into one. The court would have to determine what the people intended by having "voted up" both questions.

The Oklahoma Federation of Labor will lead the opposition to the adoption of the proposed Sec. 49 and the legislative substitute. They will be assisted by the organization of Anti-Saloon League, which, having in mind the proposed resubmission of State-wide prohibition, has adopted the slogan: "Stand pat and vote 'No.'" The corporation commission is opposing adoption of Sec. 49.

TAFT CABINET TO RESIGN, IS REPORT

Rumors Involving Nearly Every Departmental Chief Are Being Circulated.

Washington, April 12.—"Good morning, have you resigned yet?" is the daily greeting of the members of the Taft cabinet, and with harmonious alacrity the "chorus answers": "No, have you?" Only two members have escaped being made the subject of resignation rumors. They are Secretary Meyer and Attorney General Wickersham. And the gossippers, following the Wickersham speech at Chicago, threaten to do a little "rumoring" about the attorney general. Here are a few of the things scheduled by the prophets:

In the first place, administration sources had it, Roosevelt read the riot act via cable, and certain men were to be replaced by Roosevelt "fighters" for the good of the party. Then Knox began to pout, according to the rumors, because Wickersham had practically displaced him as premier, and MacVeagh, because of the opposition to his tariff decisions, was also to get out. Secretary Nagel was to be appointed to succeed the late Justice Brewer on the supreme court bench, but he refused. He was to leave the cabinet anyhow. Secretary Dickinson is to make a fight for the senatorship from Tennessee. Secretary Ballinger has embarrassed the administration, according to the rumor, and must take the toboggan. "Uncle Jim" Wilson is an old man and so he was also scheduled for the ax. Postmaster General Hitchcock was to quit cabineting and take to politics.

Then the gossippers paused and waited for denials. They came. The President denied. Knox denied. MacVeagh denied. Wilson said it wasn't his turn to resign—he resigned only on Mondays and Wednesdays. Ballinger said: "The thing to do is to keep your nerve." Some of the rumors, however, have seemed to have issued from authoritative sources and no one in Washington would be surprised if they came true.

Harry Thaw a Witness.

New York, April 11.—Harry K. Thaw, looking pale and nervous, took the witness stand today in the trial of the suit brought by Clifford W. Hartridge against Mrs. Mary Copley Thaw for \$93,000, which Mr. Hartridge claims is due him for his services as counsel in Thaw's first trial for the murder of Stanford White.

Thaw gave his testimony in an indistinct and disconnected manner. He said he never had authorized Mr. Hartridge to spend money on women in order to silence them. Up to December, 1906, he said, he paid \$57,000 to Mr. Hartridge.

"He told me," said Thaw, "that he was spending money for counsel fees and to obtain witnesses. In October, 1906, I heard that Hartridge was gambling with my money and had lost \$11,000 at roulette."

The next month, he said, the case virtually was taken out of Hartridge's hands, although he was allowed to remain one of the counsel.

VEGETABLES NOW IN SEASON

New and Old Ways of Preparing the Ordinary Accompaniments of the Staple Meats.

Creamed Cabbage.—One small head cabbage chopped coarsely and boiled 10 minutes in boiling salted water without covering; drain. Mix two level tablespoonsful of flour with the same amount of butter and add to one-half pint of the liquid from cabbage, one cupful scalded milk, one-half teaspoonful salt; stir over flame until rather thick. Place layer of cabbage, one of sauce, until bake dish is full, then place in oven until nicely browned. May be prepared the day before wanted. Only takes a longer time to brown in the oven when ready.

Sweet Potatoes.—Peel, boil in enough water to cover. When nearly done pour off all but a cupful of the water and add one good cup of sugar. Cook about 10 or 15 minutes longer. Then take out potatoes, put in a pan with a tablespoonful of butter, add just a little vanilla to the sirup and pour over the potatoes. Put in oven and brown. Serve hot.

Potatoes au Gratin.—Boil as many potatoes as needed in the jackets. Peel and cut in small cubes. Put a layer of potatoes in a baking dish and sprinkle with salt and pepper. Now grate Swiss cheese plentifully over them and dot with butter. Put more potatoes and more cheese until pan is full. Cover top with cracker crumbs and pour a cupful of rich milk over and bake about 30 minutes. Serve from pan you baked them in. This is a fine dish, but use no other than Swiss cheese.

Potatoes.—Pare, wash and bake all same size potatoes. After done, cut in halves, scrape out the inside of potato, add butter, pepper, salt and milk, then mash and beat until very light; then put back into the half shell, rounding top nice and smooth. Put under broiler flame to brown quickly, serve on platter, garnish with parsley; put a small piece of butter on each half potato just before serving.

Green Tomato Mince.—To one-half peck of green tomatoes add two pounds of sugar, one pound of raisins, one pound of cranberries, one tablespoonful ground cinnamon, three-fourths tablespoonful of cloves, one-half cupful of vinegar, pinch salt, five sour apples, one-half cupful of beef suet; put whole mass through meat chopper and boil about two hours. The suet can be omitted, but it won't be quite so rich without. This keeps all winter in stone crock or glass jars.

A cloth moistened with alcohol will clean piano keys.

Clean linoleum with warm water and polish with milk.

Ammonia used unsparingly cleanses and purifies kitchen utensils.

Clean soiled wallpaper with plaster of paris tied up in a muslin bag.

No soap on window panes! Rub them with either alcohol or ammonia to make them shine.

Decorated china plates should be put away with round pieces of cotton flannel between them.

Apply the white of an egg with a camel's hair brush to fly specks on gilt frames and they will disappear.

Soft soap made from half a pound of shaved down hard soap and two quarts of water will save the soap bill at cleaning time.

All the cooking utensils should be washed with soda immediately after they have been used, which will remove every trace of grease.

Grated raw potato makes a splendid cleanser for carpets. Rub it over the surface and finish off with a clean cloth wrung out of warm water.

Cover plaster of paris figures with a thick coating of starch and water, let it dry on the surface and the dirt will brush off with the dry powder.

Breaded Lamb Chops, Stuffed Tomatoes

Select tender chops, about one inch thick, remove all extra fat, season with salt and pepper, cover with fine sifted breadcrumbs, lay on a rack in the baking pan. For each chop take one ripe but firm tomato, cut a small circle off the top, scoop out a little of the inside and fill the cavity with fine breadcrumbs seasoned with salt and pepper, a little melted butter, a few drops of lemon juice and a little minced parsley. Cover with the circle cut off, place a tomato on each chop and bake in a hot oven from 20 to 30 minutes.

Ironing Board.

The ordinary board may be made much handier for ironing garments of all descriptions, but especially skirts and shirts, by the use of the saw, plane and square. Notches are made near the ends to allow the tops of the chairs to pass through, while a clothes basket or some heavy object placed on one of the chairs will steady it.

Sauce Maitre d'Hotel.

Thoroughly blend a piece of butter the size of an egg with chopped parsley, black pepper and a little fine table salt. Then put this in a bowl to melt slowly, and when liquid serve it smoking hot with boiled or broiled fish, broiled meat or simply boiled potatoes. Squeeze half a lemon into the sauce before sending it to the table.

Sponge Candy.

One cup of table syrup, one cup of granulated sugar; let boil until it cracks when dropped in cold water. Take two teaspoons of baking soda rubbed smooth; stir soda quickly into candy. After removing candy from fire, when thick turn out on buttered platter and let cool.

SPECIAL ELEC- TION JUNE 17

REMOVAL OF STATE CAPITAL
FROM GUTHRIE TO BE SUB-
MITTED TO VOTERS OF
STATE.

RAILROAD AMENDMENT ALSO SUBMITTED

Permitting Foreign Railroad Corpora-
tions to Acquire Property of
Domestic Corporations.

Guthrie, Ok., April 12—At the special election to be held throughout Oklahoma on June 11, in addition to the question for removal of the state capital from Guthrie, there will be submitted to a vote of the people the proposed Sec 39 of Art IX of the constitution, which was initiated some months ago under supervision of the Oklahoma Federated Commercial clubs. The chief claim in support of the amendment is that it will permit foreign railroad corporations to acquire the property of domestic corporations or those organized under the laws of Oklahoma, now expressly prohibited by Sec 9 of Art IX of the state constitution. The campaign thus far has been made up the straight repeal of Sec 9 but in fact, the proposed amendment makes no reference to that section either by name or number. Its adoption, however, would wipe Sec 9 from the constitution. Sec 9 reads:

"Neither shall any railroad company, transportation company or transmission company organized under the laws in this state consolidate by private or judicial sale, or otherwise, with any railroad company, transportation company or transmission company organized under the laws of any other state or of the United States."

Sec 49, which it is proposed to adopt as a part of the constitution, attached to Art IX, reads as follows:

"Sec 49 Any railroad, transportation or transmission company, organized under the laws of any other state, or of the United States, or any Territory thereof, and owning or operating any line or lines in this state,

You Mothers Who Have a Real Boy

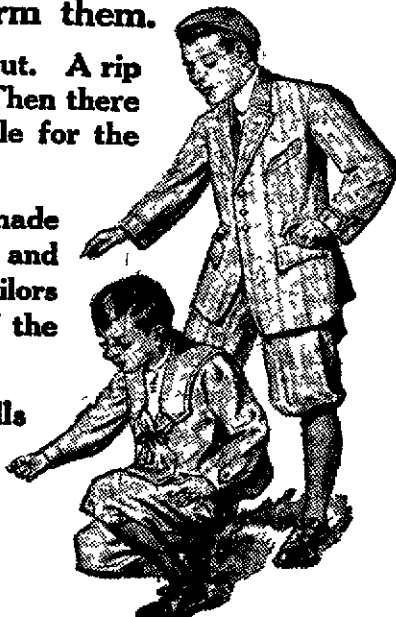

Here are real clothes. Not the fussy, fancy, impractical kind; but good, staunch, substantial garments with style and durability.

These are XTRAGOOD clothes. The real boy, with all his pranks, can't harm them.

The trousers are lined throughout. A rip or a tear is a thing unheard of. Then there is a fullness that makes it impossible for the boy to stretch them out of shape.

Style comes natural in clothes made like XTRAGOOD. The proportion and shape given the clothes by the tailors who make them remain a part of the garments to the end.

Only one store in town sells XTRAGOOD. That's this store. The new Spring styles are here now. Prices will attract you as much as the clothes. Both are right.

Such foreign corporations shall not be required to maintain a general office or to hold corporate meetings in the state; or keep its books or records in this state except as may be necessary in the transaction of its business within the state, but this provision shall not be construed as limiting the power of the state to require by law the filing of such reports and the furnishing of such information as may be necessary to properly regulate its business in the state, and shall not relieve such foreign or domestic corporation from all proper supervision and control of the corporation commission under the constitution and laws of this state."

It will be observed that the proposed new section in addition to giving the right to consolidate railroads that are foreign and domestic, it grants to foreign corporations authority to exercise the right of eminent domain, which would automatically result from repeal of Sec. 9, or

PREACHER ELOPER

OPPOSING REQUISITION

Guthrie, Okla., April 12—Isaac Choate, the Harrah preacher, who ran away with pretty fifteen year old Myrtle Williams, doesn't want to go back to Fort Worth, where a charge of perjury has been lodged against him.

When Choate took the girl to Ft Worth and married her, he swore that her age was eighteen. When it developed that she was three years younger, a charge of perjury was lodged against him.

The governor of Texas has issued a requisition for Choate's return to that state and Choate is fighting it on the ground that while he was

courtting the girl her relatives told him she was eighteen years old. He will be given a hearing before the governor Thursday.

RESUBMISSION MANDAMUS ARGUED

STATEMENTS OF ONE SIDE AT-
TACK 21-YEAR DRY PROVIS-
ION, OTHER DEFEND IT.

COURT HEARS ATTORNEYS

Arguments on Mandamus Application
of Resubmissionists Against Sec-
retary of State.

Guthrie, Ok., April 12—The su-
preme court today heard arguments
on the mandamus application of the
resubmissionists against the secretary
of state to require that he accept, as
filed, petitions calling for another
vote of state-wide prohibition Judge
C B Stuart of McAlester, represent-
ing the petitioners, told the court
that the enabling act, upon which the
opponents relied, required that the
twenty-one year prohibition clause
be put in the constitution as apply-
ing to Indian Territory part of the
state and in doing so the state did
not agree that it would not later
amend its constitution in this re-
gard The federal government, he
stated, according to decisions, had
no authority to regulate or restrict
the state in the exercise of its po-
lice powers, after it had gotten into
the union, and that the state could
not yield its power in such respect

John Devereaux of Guthrie, rep-
resenting the Anti-Saloon League and
against issuance of the mandamus,
held to the view that the prohibi-
tion provision of the enabling act
which the state accepted, was a so-
lemn compact between the state and
the federal government and could
not be repudiated at will unless both
parties to the original agreement gave
consent He referred to the limita-
tion placed against the state of Ohio
regarding traffic on certain streams,
and to the case of Kansas should not
be taxed for a certain length of
time, showing that in both instances
the appeal courts had sustained the
provisions inserted by congress in
enabling acts

H T Laughbaum of Oklahoma City
attorney for the Anti-Saloon League
argued that the proposition was a
fixed portion of the state's law for
a period of twenty one years and there-
after until repealed by the people
this being the result of the vote at
the polls adopting the proposition
and the agreement between the fed-
eral government and the state In the
light of this he insisted prohibition
is not subject to the initiative and
referendum

itance, he may hold it five years and

REBATE RECEIPTS MERELY CHANCES

Too Small to Be Kept Track of and
Perhaps Not Valid as a Claim.

Guthrie, April 12—A great many
letters have been received by the cor-
poration commission asking that steps
be taken to improve the method of
receipting for overcharges on pas-
senger fare by the Santa Fe com-
pany

The railroads were directed, when
they secured the injunction knocking
out the two cent fare law, to issue
to each person buying a ticket at
the three cent rate a receipt for the
amount represented by the difference
between the two cent and the three
cent rate, this excess to be paid to
the passenger should the higher court
uphold the two cent rate

The Santa Fe gives a coupon that
carries a serial number It does not
state the points between which the
holder was traveling when he
'bought' the coupon nor indicate the
amount that he paid for it Should
the refund be ordered by the court
the holder of this coupon would sim-
ply have to surrender it to the rail-
road company and in the course of
time, a month or a year or two years
later after the railroad clerks had
had an opportunity to check our files
and reports and coupons to the extent
of several hundred thousand, pe-
haps millions, he would receive a re-
fund in such amount as his chance
might call for—provided his coupon
did not get lost in the transaction
and no errors were made

The traveling men complain that
they have to turn these so-called re-
ceipts in to their employers with ex-
pense accounts and that they have to
attach them to something big enough
to carry a memorandum as to what
the coupons are and to reduce the
chances of the coupon being lost

Appeals to the corporation com-
mission to install a system of re-
ceipts that would be fair to the pub-
lic are useless as this method satis-
fies the federal court and the com-
mission is without jurisdiction in the
matter

Moreover the system is wholly in
keeping with the treatment of the
public that is to be expected of a
railroad hiding behind the compre-
hensive folds of the gown of federal
jurisdiction It is a fair illustration
of the methods in force before the
corporation commission was created

The ordinary railroad thinks it an in-
sult to its dignity to make anything
sufficiently plain for an ordinary citi-
zen to understand it They keep their
books, make their reports and es-
pecially arrange their tariffs so that
it takes an expert to understand
what a rate is A majority of the
agents in the employ of the railroads
the country over cannot tell what a
rate is when they see it in the com-
pany's tariff If an agent makes an
error to the company's disadvantage
his wife and babies must make it
good out of the pittance he is paid
and upon which they depend and it
is not strange that mistakes are al-
most invariably in the company's
favor

When a shipper is the victim of so
gross an error that he knows it must
exist, and appeals to the corporation
commission, he can hope for a re-
fund, for the commission can figure
out the amount of the overcharge and
collect it for the shipper, as has been
done in an amount aggregating thou-
sands of dollars in the last year, but
for every mistake sufficiently big
for the shipper to know of it or for
him to think worth making the basis
of a claim, there are scores that no
one ever hears of but which swell
the company's earnings to an enorm-
ous extent every year

When this passenger rate case is
settled the holder of the lucky num-
bers that are now being issued in
place of receipts will be lucky indeed
if these coupons be not subjected to
the scrutiny of a corps of experts
who will discover in them the basis
for a "theory" that will impress some
federal judge with the conviction that
these simple numbers do not consti-
tute a valid receipt, are not evidence
of claim, and cannot be made the
basis for collection

Chairman Corporation Commission.

AMERICAN FLAG PLANT- ED ON MT. MCKINLEY

Fairbanks, Alaska, April 12—The
Fairbanks expedition to Mount Mc-
Kinley, the tallest peak in North
America, reached the summit on
April 3rd after a climb of one month
from the base No traces of Dr
Cook's alleged ascent was found

Thomas Lloyd leader of the ex-
pedition, arrived here last night His
companions were Daniel Patterson,
W R Taylor and Charles McGonigle
and all reached the top of the great
mountain The expedition, which left
Fairbanks, December 15th, while the
controversy over Dr Cook's disputed
ascent was still raging, was financed
by August Peterson and William Mc-
Phee of this city The plan was to
go into camp on the mountain as
high as possible and probably about
the middle of May make a dash for
the summit

The obstacles encountered were
not so great as had been predicted
Four camps were established dur-
ing the ascent and the trail blazed
all the way to the crest Up to 12,000
feet the climbing did not present the
unusual difficulties For the next 4,
000 feet the way led over a steep ice
field which at first seemed to forbid
further progress, but through which
upon exploration it was found pos-
sible to locate a path The final dash
to the top was made from the foot
camp at an altitude of 16,000 feet
Mount McKinley terminates in twin
peaks of equal height, one some-
what rounded and covered with snow
the other composed of bare and wind
swept rocks On the rock peak the
Fairbank climbers placed an Ameri-
can flag in a monument of stones

intention of complying with an order
of the Oklahoma Corporation com-
mission commanding that the Katy
be moved from Osage junc-

moval was impracticable The Katy
has applied to the commission for a
new hearing but no action has been

BANKS FACILITATE BUSINESS.

Have you calculated what a good bank is worth to any community? Have you figured how much more money is worth when in bank than when hidden away in an old stockpile? The difference is not to the bank alone, but to the whole country. President Loudermilk of the Union said in a speech at Stephenville that had farmers generally followed the advice of a few, who had not considered the consequences, and withdrawn from the banks all their deposits, it must have bankrupted the banks and meant ruin to the country and that farmers would have been the greatest sufferers. This shows that Mr. Loudermilk has a conception of the relations of business interests.

The man who hides money may not lose it by a bank failure, but he may have it stolen, or he may be murdered for it. Or he may be tortured and forced to give it up. To hide money in a miserly way is folly. It is fortunate that it is unsafe to do so. Money in bank is seldom paid out, and checks become circulating medium, with the result that money does duty many times. Full banks mean prosperity for a community. They evidence prosperity and cause prosperity.—Farm and Ranch.

The bully started a disturbance. Two of Potter's blows beat him through the door of the coach and he retired to the smoker and remained docile.

Ben Lomond, Cal., April 12.—Woodsmen say that Jim Jeffries is an expert with the axe. They saw him use one Monday to good advantage, for during the day the fighter felled three trees and not only did he cut them down, but he cut them up and with a saw converted them into fire wood.

Rain had prevented the usual morning roadwork and Jeffries was strolling toward the gymnasium when he caught sight of a woodsman felling a big tree. He offered to finish the job and the axe was handed to him.

Stripping off his coat Jeffries swung the axe until the tree, whose trunk was four feet round lay on the ground. The big pugilist is now enthusiastic over woodcutting.

"It's great exercise," he said, "and I intend to do a great deal of it. I cut a cord of wood just before I came up here. It was the first wood-chopping I had done since I was a kid."

Wood-chopping will be added to Jeffries' daily program of training work. Just when Jeffries will begin boxing no one in the camp is able to say.

Jeffries is whimsical about work and rarely follows a set schedule.

His decision to don the gloves for sparring probably will be reached on a moment and carried into immediate effect. Indoor work will be taken up more extensively when gloves, bags, pullies and other condition apparatus arrives.

(Continued from Page One.)
the adoption of the proposed Sec. 49, even though the grant was not expressly set out. The proposed section also repeals the general office clause of the constitution, that requires the maintaining of headquarters in the state, the holding of annual meetings here and the keeping in the state of records, books, etc. It provides in the final clause however, that the powers of the corporation commission shall not thereby be restricted, and shall not be construed as limiting the state's authority to require production of such papers as are necessary to proper regulation of a railroad in the state.

According to Attorney General West who prepared the ballot title, the proposed new Sec. 49 has a much greater effect than disclosed by casual reading. He insists that it would repeal Secs. 2, 6, 8, 9, 11, 28 and 31, and a part of Sec. 18 of the constitution.

The only railroads operating in Oklahoma that would be affected by the change are the Oklahoma Central and the Missouri, Oklahoma and Gulf. The Atchison, Topeka and Santa Fe has made a tentative agreement to purchase the first, if it is made legally possible, and it is understood that the Houston and Texas Central would absorb the latter. The change would also affect railroads being projected within the state, by permitting their sale to the larger systems when completed.

There is to be submitted to a vote of the people at the general election in November a substitute for Sec. 9, by reason of which the public might be confused. The substitute was passed during the second legislature's regular session, and is literally copied from the Louisiana constitution. It would permit consolidation or purchase of domestic by foreign corporations, but provides that such portion of the property remaining in the state shall be subject to jurisdiction of the state courts as though no consolidation or purchase had taken place. There is some doubt among attorneys whether such a clause would be effective, for, it is pointed out, to have half of a concern of one corporate character, and half of another, is probably impossible. The substitute was urged before the legislature by representatives of Oklahoma Commercial Clubs, who stated that such provision "worked all right in Louisiana."

Being submitted at different elections, it is possible, however, for both the so-called Carter proposition (proposed Sec. 49) and the legislative substitute being adopted. In such event members of the legislature think both propositions would go to the courts, and there be rewritten into one. The court would have to determine what the people intended by having "voted up" both questions.

The Oklahoma Federation of Labor will lead the opposition to the adoption of the proposed Sec. 49 and the legislative substitute. They will be assisted by the organization of Anti-Saloon League, which, having in mind the proposed resubmission of State-wide prohibition, has adopted the slogan: "Stand pat and vote 'No.'" The corporation commission is opposing adoption of Sec. 49.

TAFT CABINET TO RESIGN, IS REPORT

Rumors Involving Nearly Every Departmental Chief Are Being Circulated.

Washington, April 12.—"Good morning, have you resigned yet?" is the daily greeting of the members of the Taft cabinet, and with harmonious alacrity the chorus answers: "No, have you?" Only two members have escaped being made the subject of resignation rumors. They are Secretary Meyer and Attorney General Wickersham. And the gossippers, following the Wickersham speech at Chicago, threaten to do a little "rumormongering" about the attorney general. Here are a few of the things scheduled by the prophets:

In the first place, administration sources had it, Roosevelt read the riot act via cable, and certain men were to be replaced by Roosevelt "fighters" for the good of the party. Then Knox began to pout, according to the rumors, because Wickersham had practically displaced him as premier, and MacVane, because of the opposition to his tariff decisions, was also to get out. Secretary Nagel was to be appointed to succeed the late Justice Brewer on the supreme court bench, but he refused. He was to leave the cabinet anyhow. Secretary Dickinson is to make a fight for the senatorship from Tennessee. Secretary Ballinger has embarrassed the administration, according to the rumor, and must take the toboggan. "Uncle Jim" Wilson is an old man and so he was also scheduled for the ax. Postmaster General Hitchcock was to quit cabineting and take to politics.

Then the gossippers paused and waited for denials. They came. The President denied. Knox denied. MacVane denied. Wilson said it wasn't his turn to resign—he resigned only on Mondays and Wednesdays. Ballinger said: "The thing to do is to keep your nerve." Some of the rumors, however, have seemed to have issued from authoritative sources and no one in Washington would be surprised if they came true.

Harry Thaw a Witness.

New York, April 11.—Harry K. Thaw, looking pale and nervous, took the witness stand today in the trial of the suit brought by Clifford W. Hartridge against Mrs. Mary Copley Thaw for \$93,000, which Mr. Hartridge claims is due him for his services as counsel in Thaw's first trial for the murder of Stanford White.

Thaw gave his testimony in an indistinct and disconnected manner. He said he never had authorized Mr. Hartridge to spend money on women in order to silence them. Up to December, 1906, he said, he paid \$57,000 to Mr. Hartridge.

"He told me," said Thaw, "that he was spending money for counsel fees and to obtain witnesses. In October, 1906, I heard that Hartridge was gambling with my money and had lost \$11,000 at roulette."

The next month, he said, the case virtually was taken out of Hartridge's hands, although he was allowed to remain one of the counsel.

VEGETABLES NOW IN SEASON

New and Old Ways of Preparing the Ordinary Accompaniments of the Staple Meats.

Creamed Cabbage.—One small head cabbage chopped coarsely and boiled 10 minutes in boiling salted water without covering; drain. Mix two level tablespoonsful of flour with the same amount of butter and add to one-half pint of the liquid from cabbage, one cupful scalded milk, one-half teaspoonful salt; stir over flame until rather thick. Place layer of cabbage, one of sauce, until bake dish is full, then place in oven until nicely browned. May be prepared the day before wanted. Only takes a longer time to brown in the oven when ready.

Sweet Potatoes.—Peel, boil in enough water to cover. When nearly done pour off all but a cupful of the water and add one good cup of sugar. Cook about 10 or 15 minutes longer. Then take out potatoes, put in a pan with a tablespoonful of butter, add just a little vanilla to the sirup and pour over the potatoes. Put in oven and brown. Serve hot.

Potatoes au Gratin.—Boil as many potatoes as needed in the jackets. Peel and cut in small cubes. Put a layer of potatoes in a baking dish and sprinkle with salt and pepper. Now grate Switzer cheese plentifully over them and dot with butter. Put more potatoes and more cheese until pan is full. Cover top with cracker crumbs and pour a cupful of rich milk over and bake about 30 minutes. Serve from pan you baked them in. This is a fine dish, but use no other than Switzer cheese.

Potatoes.—Pare, wash and bake all same size potatoes. After done, cut in halves, scrape out the inside of potato, add butter, pepper, salt and milk, then mash and beat until very light; then put back into the half shell, rounding top nice and smooth. Put under broiler flame to brown quickly, serve on platter, garnish with parsley; put a small piece of butter on each half potato just before serving.

Green Tomato Mince-meat.—To one-half peck of green tomatoes add two pounds of sugar, one pound of raisins, one pound of cranberries, one tablespoonful ground cinnamon, three-fourths tablespoonful of cloves, one-half cupful of vinegar, pinch salt, five sour apples, one-half cupful of beef suet; put whole mass through meat chopper and boil about two hours. The suet can be omitted, but it won't be quite so rich without. This keeps all winter in stone crock or glass jars.

A cloth moistened with alcohol will clean piano keys.

Clean linoleum with warm water and polish with milk.

Ammonia used unsparingly cleanses and purifies kitchen utensils.

Clean soiled wallpaper with plaster of paris dusted up in a muslin bag.

No soap on window panes! Rub them with either alcohol or ammonia to make them shine.

Decorated china plates should be put away with round pieces of cotton flannel between them.

Apply the white of an egg with a camel's hair brush to fly specks on gilt frames and they will disappear.

Soft soap made from half a pound of shaved down hard soap and two quarts of water will save the soap bill at cleaning time.

All the cooking utensils should be washed with soda immediately after they have been used, which will remove every trace of grease.

Grated raw potato makes a splendid cleanser for carpets. Rub it over the surface and finish off with a clean cloth wrung out of warm water.

Cover plaster of paris figures with a thick coating of starch and water, let it dry on the surface and the dirt will brush off with the dry powder.

Breaded Lamb Chops, Stuffed Tomatoes.—Select tender chops, about one inch thick, remove all extra fat, season with salt and pepper, cover with fine sifted breadcrumbs, lay on a rack in the baking pan. For each chop take one ripe but firm tomato, cut a small circle off the top, scoop out a little of the inside and fill the cavity with fine bread crumbs seasoned with salt and pepper, a little melted butter, a few drops of lemon juice and a little minced parsley. Cover with the circle cut off, place a tomato on each chop and bake in a hot oven from 20 to 30 minutes.

Ironing Board.—The ordinary board may be made much handier for ironing garments of all descriptions, but especially shirts and shirts, by the use of the saw, plane and square. Notches are made near the ends to allow the tops of the chairs to pass through, while a clothes basket or some heavy object placed on one of the chairs will steady it.

Sauce Maitre d'Hotel.—Thoroughly blend a piece of butter the size of an egg with chopped parsley, black pepper and a little fine table salt. Then put this in a bowl to melt slowly, and when liquid serve it smoking hot with boiled or broiled fish, broiled meat or simply boiled potatoes. Squeeze half a lemon into the sauce before sending it to the table.

Sponge Candy.—One cup of table syrup, one cup of granulated sugar; let boil until it cracks when dropped in cold water. Take two teaspoons of baking soda, rubbed smooth; stir soda quickly into candy. After removing candy from fire, when thick turn out on buttered platter and let cool.

You Mothers Who Have a Real Boy

Here are real clothes. Not the fussy, fancy, impractical kind; but good, staunch, substantial garments with style and durability.

These are XTRAGOOD clothes. The real boy, with all his pranks, can't harm them.

The trousers are lined throughout. A rip or a tear is a thing unheard of. Then there is a fullness that makes it impossible for the boy to stretch them out of shape.

Style comes natural in clothes made like XTRAGOOD. The proportion and shape given the clothes by the tailors who make them remain a part of the garments to the end.

Only one store in town sells XTRAGOOD. That's this store. The new Spring styles are here now. Prices will attract you as much as the clothes. Both are right.

SPECIAL ELEC- TION JUNE 17

REMOVAL OF STATE CAPITAL
FROM GUTHRIE TO BE SUB-
MITTED TO VOTERS OF
STATE.

RAILROAD AMENDMENT ALSO SUBMITTED

Permitting Foreign Railroad Corpora-
tions to Acquire Property of
Domestic Corporations.

Guthrie, Ok., April 12.—At the special election to be held throughout Oklahoma on June 17, in addition to the question for removal of the state capital from Guthrie, there will be submitted to a vote of the people the proposed Sec. 39 of Art. IX of the constitution, which was initiated some months ago under supervision of the Oklahoma Federated Commercial clubs. The chief claim in support of the amendment is that it will permit foreign railroad corporations to acquire the property of domestic corporations, or those organized under the laws of Oklahoma, now expressly prohibited by Sec. 9 of Art. IX of the state constitution. The campaign thus far has been made up the straight repeal of Sec. 9 but in fact, the proposed amendment makes no reference to that section either by name or number. Its adoption, however, would wipe Sec. 9 from the constitution. Sec. 9 reads:

"Neither shall any railroad company, transportation company or transmission company organized under the laws in this state consolidate by private or judicial sale, or otherwise, with any railroad company, transportation company or transmission company organized under the laws of any other state or of the United States."

Sec. 49, which it is proposed to adopt as a part of the constitution, attached to Art. IX, reads as follows:

"Sec. 49. Any railroad, transportation or transmission company, organized under the laws of any other state, or of the United States, or any Territory thereof, and owning or operating any line or lines in this state,

or which may wish to construct or extend its line or lines in or into or through this state shall have the right and power upon filing a copy of its articles of incorporation with the secretary of this state, and appointing and maintaining a resident agent upon whom process may be served, to extend or construct its line or lines in or into or through this state, and build branches, and make additions or improvements and exercise the power and right of eminent domain to accomplish the corporate purpose of any such corporation, and any such foreign and domestic railroad, transportation or transmission company may lease, purchase or otherwise acquire and operate the line or lines of any railroad, transportation or transmission company is hereby authorized and empowered to make such lease, sale or other disposition of its property, or any part thereof, provided only that the line or lines of such railroad transportation or transmission company, or leased, purchased or acquired, shall in some way connect at any point or form a part of the line or lines constructed or projected, or system or business of such foreign or domestic railroad, transportation or transmission company, thereby forming connected or branch lines to the line or lines of such foreign or domestic railroad, transportation or transmission companies constructed or projected, thus facilitating the transportation of persons or property or transmission of intelligence and forming through or extended lines of transportation or transmission and communication from and to various points in the state. Such foreign corporations shall not be required to maintain a general office, or to hold corporate meetings in the state; or keep its books or records in this state except as may be necessary in the transaction of its business within the state, but this provision shall not be construed as limiting the power of the state to require by law the filing of such reports and the furnishing of such information as may be necessary to properly regulate its business in the state, and shall not relieve such foreign or domestic corporation from all proper supervision and control of the corporation commission under the constitution and laws of this state."

It will be observed that the proposed new section in addition to giving the right to consolidate railroads that are foreign and domestic, it grants to foreign corporations authority to exercise the right of eminent domain, which would automatically result from repeal of Sec. 9, or

PREACHER ELOPER

OPPOSING REQUISITION

Guthrie, Okla., April 12.—Isaac Choate, the Harrah preacher, who ran away with pretty fifteen year old Myrtle Williams, doesn't want to go back to Fort Worth, where a charge of perjury has been lodged against him.

When Choate took the girl to Ft. Worth and married her, he swore that her age was eighteen. When it developed that she was three years younger, a charge of perjury was lodged against him.

The governor of Texas has issued a requisition for Choate's return to that state and Choate is fighting it on the ground that while he was

courting the girl her relatives told him she was eighteen years old. He will be given a hearing before the governor Thursday.

Guthrie, Okla., April 12.—In reply
to an inquiry from A. Rossi, royal
consul general representing the Ital-

whether aliens are allowed to own

West replies by quoting from the con-

provide that no alien shall acquire

shall acquire title to land by inher-

RESUBMISSION MANDAMUS ARGUED

STATEMENTS OF ONE SIDE AT-
TACK 21-YEAR DRY PROVIS-
ION, OTHER DEFEND IT.

COURT HEARS ATTORNEYS

Arguments on Mandamus Application
of Resubmissionists Against Sec-
retary of State.

Guthrie, Ok., April 12.—The su-
preme court today heard arguments
on the mandamus application of the
resubmissionists against the secretary
of state to require that he accept, as
filed, petitions calling for another
vote of state-wide prohibition. Judge
C. B. Stuart of McAlester, represent-
ing the petitioners, told the court
that the enabling act, upon which the
opponents relied, required that the
twenty-one year prohibition clause
be put in the constitution as apply-
ing to Indian Territory part of the
state and in doing so the state did
not agree that it would not later
amend its constitution in this re-
gard. The federal government, he
stated, according to decisions, had
no authority to regulate or restrict
the state in the exercise of its po-
lice powers, after it had gotten into
the union, and that the state could
not yield its power in such respect.

John Devereaux of Guthrie, repre-
senting the Anti-Saloon League and
against issuance of the mandamus,
held to the view that the prohibi-
tion provision of the enabling act
which the state accepted, was a sol-
emn compact between the state and
the Federal government and could
not be repudiated at will, unless both
parties to the original agreement gave
consent. He referred to the limita-
tion placed against the state of Ohio,
regarding traffic on certain streams;
and to the case of Kansas should not
be taxed for a certain length of
time, showing that in both instances
the appeal courts had sustained the
provisions inserted by congress in
enabling acts.

H. T. Laughbaum of Oklahoma City,
attorney for the Anti-Saloon League,
argued that the proposition was a fixed
portion of the state's law for a
period of twenty-one years, and there-
after until repealed by the people;
this being the result of the vote at
the polls adopting the proposition
and the agreement between the Fed-
eral government and the state. In the
light of this, he insisted, prohibition
is not subject to the initiative and
referendum.

REBATE RECEIPTS MERELY CHANCES

Too Small to Be Kept Track of and
Perhaps Not Valid as a Claim.

Guthrie, April 12.—A great many
letters have been received by the cor-
poration commission asking that steps
be taken to improve the method of
receiving for overcharges on pas-
senger fare by the Santa Fe com-
pany.

The railroads were directed, when
they secured the injunction knocking
out the two cent fare law, to issue
to each person buying a ticket at
the three cent rate a receipt for the
amount represented by the difference
between the two cent and the three
cent rate, this excess to be paid to
the passenger should the higher court
uphold the two cent rate.

The Santa Fe gives a coupon that
carries a serial number. It does not
state the points between which the
holder was traveling when he
"bought" the coupon nor indicate the
amount that he paid for it. Should
the refund be ordered by the court
the holder of this coupon would sim-
ply have to surrender it to the rail-
road company and in the course of
time, a month or a year or two years
later, after the railroad clerks had
had an opportunity to check our files
and reports and coupons to the extent
of several hundred thousand, per-
haps millions, he would receive a re-
fund in such amount as his "chance"
might call for—provided the coupon
did not get lost in the transaction
and no errors were made.

The traveling men complain that
they have to turn these so-called re-
ceipts in to their employers with ex-
pense accounts, and that they have to
attach them to something big enough
to carry a memorandum as to what
the coupons are and to reduce the
chances of the coupon being lost.

Appeals to the corporation com-
mission to install a system of re-
ceipts that would be fair to the pub-
lic are useless, as this method sat-
isfies the federal court, and the com-
mission is without jurisdiction in the
matter.

Moreover, the system is wholly in
keeping with the treatment of the
public that is to be expected of a
railroad hiding behind the compre-
hensive folds of the gown of federal
jurisdiction. It is a fair illustration
of the methods in force before the
corporation commission was created.
The ordinary railroad thinks it an in-
sult to its dignity to make anything
sufficiently plain for an ordinary citi-
zen to understand it. They keep their
books, make their reports, and es-
pecially arrange their tariffs so that
it takes an expert to understand
what a rate is. A majority of the
agents in the employ of the railroads
the country over cannot tell what a
rate is when they see it in the com-
pany's tariff. If an agent makes an
error to the company's disadvantage
his wife and babies must make it
good out of the pittance he is paid
and upon which they depend, and it
is not strange that mistakes are al-
most invariably in the company's
favor.

When a shipper is the victim of so
gross an error that he knows it must
exist, and appeals to the corporation
commission, he can hope for a re-
fund, for the commission can figure
out the amount of the overcharge and
collect it for the shipper, as has been
done in an amount aggregating thou-
sands of dollars in the last year; but
for every mistake sufficiently big
for the shipper to know of it or for
him to think worth making the basis
of a claim, there are scores that no
one ever hears of, but which swell
the company's earnings to an enorm-
ous extent every year.

When this passenger rate case is
settled the holder of the lucky num-
bers that are now being issued in
place of receipts will be lucky indeed
if these coupons be not subjected to
the scrutiny of a corps of experts
who will discover in them the basis
for a "theory" that will impress some
federal judge with the conviction that
these simple numbers do not consti-
tute a valid receipt, are not evidence
of claim, and cannot be made the
basis for collection.

AMERICAN FLAG PLANT
ED ON MT. MCKINLEY
Fairbanks, Alaska, April 12.—The
Fairbanks expedition to Mount Mc-
Kinley, the tallest peak in North
America, reached the summit on
April 3rd after a climb of one month
from the base. No traces of Dr.
Cook's alleged ascent was found.

Thomas Lloyd leader of the ex-
pedition, arrived here last night. His
companions were Daniel Patterson,
W. R. Taylor and Charles McGonigle
and all reached the top of the great
mountain. The expedition, which left
Fairbanks, December 15th, while the
controversy over Dr. Cook's disputed
ascent was still raging, was financed
by August Peterson and William Mc-
Phee of this city. The plan was to
go into camp on the mountain as
high as possible and probably about
the middle of May make a dash for
the summit.

The obstacles encountered were
not so great as had been predicted.
Four camps were established dur-
ing the ascent and the trail blazed
all the way to the crest. Up to 12,000
feet the climbing did not present the
unusual difficulties. For the next 4,
000 feet the way led over a steep ice
field which at first seemed to forbid
further progress, but through which
upon exploration it was found pos-
sible to locate a path. The final dash
to the top was made from the foot
camp at an altitude of 16,000 feet.
Mount McKinley terminates in twin
peaks of equal height, one some-
what rounded and covered with snow,
the other composed of bare and wind
swept rocks. On the rock peak the
Fairbank climbers placed an Ameri-
can flag in a monument of stones.

Railway Defies Commission.
Hominy, Ok., April 12.—Speaking
from the rear of his private car to
Hominy citizens yesterday, President
A. A. Allen of the Missouri, Kansas
and Texas Railroad Company, who
was on his way to St. Louis from
Texas, said that his company had no
intention of complying with an order
of the Oklahoma Corporation com-
mission commanding that the Katy
division be moved from Osage junc-
tion to Cleveland because the re-
moval was impracticable. The Katy
has applied to the commission for a
new hearing, but no action has been
taken on the application.

BANKS FACILITATE BUSINESS.

Have you calculated what a good bank is worth to any community? Have you figured how much more money is worth when in bank than when hidden away in an old stockpile? The difference is not to the bank alone, but to the whole country. President Loudermilk of the Union said in a speech at Stephenville that had farmers generally followed the advice of a few, who had not considered the consequences, and withdrawn from the banks all their deposits, it must have bankrupted the banks and meant ruin to the country and that farmers would have been the greatest sufferers. This shows that Mr. Loudermilk has a conception of the relations of business interests.

The man who hides money may not lose it by a bank failure, but he may have it stolen, or he may be murdered for it. Or he may be tortured and forced to give it up. To hide money in a miserly way is folly. It is fortunate that it is unsafe to do so. Money in bank is seldom paid out, and checks become circulating medium, with the result that money does duty many times. Full banks mean prosperity for a community. They evidence prosperity and cause prosperity.—Farm and Ranch.

Former Athlete Chastises Bully.
Chandler, Okla., April 12—Coming from Wichita Falls, Tex., Dr. A. B. Potter, an ex-college athlete and at present a paving contractor in Chandler, gave a latter-day performance of the Dick Merriwell act and incidentally taught a bully a lesson in politeness. The bully started a disturbance. Two of Potter's blows beat him through the door of the coach and he retired to the smoker and remained docile.

Dr. Potter, during the years between 1895 and 1898, was an all-western star halfback, playing on the Northwestern university team during the years that school won the middle states championship. He twice made the position as half back on the all-American team. His athletic record includes also a 100-yard record of 9 4-5 seconds.

Jeff and Jack Busy.
Ben Lomond, Cal., April 12.—Woodsmen say that Jim Jeffries is an expert with the axe. They saw him use one Monday to good advantage, for during the day the fighter felled three trees and not only did he cut them down, but he cut them up and with a saw converted them into fire wood.

Rain had prevented the usual morning roadwork and Jeffries was strolling toward the gymnasium when he caught sight of a woodsman felling a big tree. He offered to finish the job and the axe was handed to him.

Stripping off his coat Jeffries swung the axe until the tree, whose trunk was four feet round lay on the ground. The big puglist is now enthusiastic over woodcutting.

"It's great exercise," he said, "and I intend to do a great deal of it. I cut a cord of wood just before I came up here. It was the first wood-chopping I had done since I was a kid."

Wood-chopping will be added to Jeffries' daily program of training work. Just when Jeffries will begin boxing no one in the camp is able to say.

Jeffries is whimsical about work and rarely follows a set schedule.

SPECIAL ELECTION JUNE 17

(Continued from Page One.)
The adoption of the proposed Sec. 49, even though the grant was not expressly set out. The proposed section also repeals the general office clause of the constitution, that requires the maintaining of headquarters in the state, the holding of annual meetings here and the keeping in the state of records, books, etc. It provides in the final clause however, that the powers of the corporation commission shall not thereby be restricted, and shall not be construed as limiting the state's authority to require production of such papers as are necessary to proper regulation of a railroad in the state.

According to Attorney General West who prepared the ballot title, the proposed new Sec. 49 has a much greater effect than disclosed by casual reading. He insists that it would repeal Secs. 2, 6, 8, 9, 11, 28 and 31, and a part of Sec. 18 of the constitution.

The only railroads operating in Oklahoma that would be affected by the change are the Oklahoma Central and the Missouri, Oklahoma and Gulf. The Atchison, Topeka and Santa Fe has made a tentative agreement to purchase the first, if it is made legally possible, and it is understood that the Houston and Texas Central would absorb the latter. The change would also affect railroads being projected within the state, by permitting their sale to the larger systems when completed.

There is to be submitted to a vote of the people at the general election in November a substitute for Sec. 9, by reason of which the public might be confused. The substitute was passed during the second legislature's regular session, and is literally copied from the Louisiana constitution. It would permit consolidation or purchase of domestic by foreign corporations, but provides that such portion of the property remaining in the state shall be subject to jurisdiction of the state courts as though no consolidation or purchase had taken place. There is some doubt among attorneys whether such a clause would be effective, for, it is pointed out, to have half of a concern of one corporate character, and half of another, is probably impossible. The substitute was urged before the legislature by representatives of Oklahoma Commercial Clubs, who stated that such provision "worked all right in Louisiana."

Being submitted at different elections, it is possible, however, for both the so-called Carter proposition (proposed Sec. 49) and the legislative substitute being adopted. In such event members of the legislature think both propositions would go to the courts, and there be rewritten into one. The court would have to determine what the people intended by having "voted up" both questions.

The Oklahoma Federation of Labor will lead the opposition to the adoption of the proposed Sec. 49 and the legislative substitute. They will be assisted by the organization of Anti-Saloon League, which, having in mind the proposed resubmission of State-wide prohibition, has adopted the slogan: "Stand pat and vote 'No.'". The corporation commission is opposing adoption of Sec. 49.

TAPT CABINET TO RESIGN, IS REPORT

Rumors Involving Nearly Every Departmental Chief Are Being Circulated.

Washington, April 12.—"Good morning, have you resigned yet?" is the daily greeting of the members of the Taft cabinet, and with harmonious alacrity the "chorus" answers: "No, have you?" Only two members have escaped being made the subject of resignation rumors. They are Secretary Meyer and Attorney General Wickersham. And the gossippers, following the Wickersham speech at Chicago, threaten to do a little "rumormongering" about the attorney general. Here are a few of the things scheduled by the prophets:

In the first place, administration sources had it, Roosevelt read the riot act via cable, and certain men were to be replaced by Roosevelt "fighters" for the good of the party. Then Knox began to pout, according to the rumors, because Wickersham had practically displaced him as premier, and MacVeagh, because of the opposition to his tariff decisions, was also to get out. Secretary Nagel was to be appointed to succeed the late Justice Brewer on the supreme court bench, but he refused. He was to leave the cabinet anyhow. Secretary Dickinson is to make a fight for the senatorship from Tennessee. Secretary Ballinger has embarrassed the administration, according to the rumor, and must take the toboggan. "Uncle Jim" Wilson is an old man and so he was also scheduled for the ax. Postmaster General Hitchcock was to quit cabineting and take to politics.

Then the gossippers paused and waited for denials. They came. The President denied. Knox denied. MacVeagh denied. Wilson said it wasn't his turn to resign—he resigned only on Mondays and Wednesdays. Ballinger said: "The thing to do is to keep your nerve." Some of the rumors, however, have seemed to have issued from authoritative sources and no one in Washington would be surprised if they came true.

Harry Thaw a Witness.

New York, April 11.—Harry K. Thaw, looking pale and nervous, took the witness stand today in the trial of the suit brought by Clifford W. Hartridge against Mrs. Mary Copley Thaw for \$93,000, which Mr. Hartridge claims is due him for his services as counsel in Thaw's first trial for the murder of Stanford White.

Thaw gave his testimony in an indistinct and disconnected manner. He said he never had authorized Mr. Hartridge to spend money on women in order to silence them. Up to December, 1906, he said, he paid \$57,000 to Mr. Hartridge.

"He told me," said Thaw, "that he was spending money for counsel fees and to obtain witnesses. In October, 1906, I heard that Hartridge was gambling with my money and had lost \$11,000 at roulette."

The next month, he said, the case virtually was taken out of Hartridge's hands, although he was allowed to remain one of the counsel.

VEGETABLES NOW IN SEASON

New and Old Ways of Preparing the Ordinary Accompaniments of the Staple Meats.

Creamed Cabbage.—One small head cabbage chopped coarsely and boiled 10 minutes in boiling salted water without covering; drain. Mix two level tablespoonsfuls of flour with the same amount of butter and add to one-half pint of the liquid from cabbage, one cupful scalded milk, one-half teaspoonful salt; stir over flame until rather thick. Place layer of cabbage, one of sauce, until bake dish is full, then place in oven until nicely browned. May be prepared the day before wanted. Only takes a longer time to brown in the oven when ready.

Sweet Potatoes.—Peel, boil in enough water to cover. When nearly done pour off all but a cupful of the water and add one good cup of sugar. Cook about 10 or 15 minutes longer. Then take out potatoes, put in a pan with a tablespoonful of butter, add just a little vanilla to the syrup and pour over the potatoes. Put in oven and brown. Serve hot.

Potatoes au Gratin.—Boil as many potatoes as needed in the jackets. Peel and cut in small cubes. Put a layer of potatoes in a baking dish and sprinkle with salt and pepper. Now grate Swiss cheese plentifully over them and dot with butter. Put more potatoes and more cheese until pan is full. Cover top with cracker crumbs and pour a cupful of rich milk over and bake about 30 minutes. Serve from pan you baked them in. This is a fine dish, but use no other than Swiss cheese.

Potatoes.—Pare, wash and bake all same size potatoes. After done, cut in halves, scrape out the inside of potato, add butter, pepper, salt and milk, then mash and beat until very light; then put back into the half shell, rounding top nice and smooth. Put under broiler flame to brown quickly, serve on platter, garnish with parsley; put a small piece of butter on each half potato just before serving.

Green Tomato Mince-meat.—To one half peck of green tomatoes add two pounds of sugar, one pound of raisins, one pound of cranberries, one tablespoonful ground cinnamon, three-fourths tablespoonful of cloves, one-half cupful of vinegar, pinch salt, five sour apples, one-half cupful of beef suet; put whole mass through meat chopper and boil about two hours. The suet can be omitted, but it won't be quite so rich without. This keeps all winter in stone crock or glass jars.

A cloth moistened with alcohol will clean piano keys.

Clean linoleum with warm water, and polish with milk.

Ammonia used unsparingly cleanses and purifies kitchen utensils.

Clean soiled wallpaper with plaster of paris tied up in a muslin bag.

No soap on window panes! Rub them with either alcohol or ammonia to make them shine.

Decorated china plates should be put away with round pieces of cotton flannel between them.

Apply the white of an egg with a camel's hair brush to fly specks on gilt frames and they will disappear.

Soft soap made from half a pound of shaved down hard soap and two quarts of water will save the soap bill at cleaning time.

All the cooking utensils should be washed with soda immediately after they have been used, which will remove every trace of grease.

Grated raw potato makes a splendid cleanser for carpets. Rub it over the surface and finish off with a clean cloth wrung out of warm water.

Cover plaster of paris figures with a thick coating of starch and water, let it dry on the surface and the dirt will brush off with the dry powder.

Breaded Lamb Chops, Stuffed Tomatoes

Select tender chops, about one inch thick, remove all extra fat, season with salt and pepper, cover with fine sifted breadcrumbs, lay on a rack in the baking pan. For each chop take one ripe but firm tomato, cut a small circle off the top, scoop out a little of the inside and fill the cavity with fine bread-crumbs seasoned with salt and pepper, a little melted butter, a few drops of lemon juice and a little minced parsley. Cover with the circle cut off, place a tomato on each chop and bake in a hot oven from 20 to 30 minutes.

Ironing Board.

The ordinary board may be made much handier for ironing garments of all descriptions, but especially shirts and shirts, by the use of the saw, plane and square. Notches are made near the ends to allow the tops of the chairs to pass through, while a clothes basket or some heavy object placed on one of the chairs will steady it.

Sauce Maitre d'Hotel.

Thoroughly blend a piece of butter the size of an egg with chopped parsley, black pepper and a little fine table salt. Then put this in a bowl to melt slowly, and when liquid serve it smoking hot with broiled or broiled fish, broiled meat or simply broiled potatoes. Squeeze half a lemon into the sauce before sending it to the table.

Sponge Candy.

One cup of table syrup, one cup of granulated sugar; let boil until it cracks when dropped in cold water. Take two teaspoons of baking soda rubbed smooth; stir soda quickly into candy. After removing candy from fire, when thick turn out on buttered platter and let cool.

IF WOMEN ONLY KNEW.

What a Heap of Happiness It Would Bring to Ada Homes.

Hard to do housework with an aching back.

Brings you hours of misery at leisure or at work.

If women only knew the cause—that

Backache pains come from sick kidneys,

'Twould save much needless woe.

Doan's Kidney Pills cure sick kidneys.

Many residents of this vicinity endorse them.

Mrs. Samuel Marshall, 107 of Coalgate, Okla., says: "About two years ago I suffered from an almost constant ache across the small of my back, especially severe when I contracted a cold or overexerted myself. I also had trouble from the kidney secretions. Hearing Doan's Kidney Pills highly spoken of, I procured a box

and found prompt relief from their use. The contents of two boxes of this remedy cured me. I always advise the use of Doan's Kidney Pills to any one I hear complaining of kidney disease."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
